Jabra Handset 450

The perfect UC experience for users who prefer a handset

Ensure seamless integration of Unified Communication (UC) and a positive user-experience for users who have a necessity for wireless freedom but prefer using a handset.

Developed for creating a positive UC experience

Jabra Handset 450 combines the comfort of a wireless phone experience with the many benefits of a UC solution. Offering premium audio quality, remote call control, and plug-and-play installation, the wireless Handset 450 is the seamless upgrade from a wired desk phone. Fully compatible with Skype for Business and other soft-phones and certified for Cisco, Handset 450 enables you to choose the way you work.

Crystal clear sound

Handset 450 integrates wideband audio to give you a crystal clear and natural sound experience, guaranteeing that you won't miss any details. The noise-canceling microphone will eliminate any background noise and ensure that you are always heard.

Wireless, secure and simple

Jabra Handset 450's plug-and-play solution ensures that installation is truly hassle-free. Wireless DECT technology allows you to take the call anywhere in the office, with up to 66 foot range. High security DECT encryption and physical pairing, (rather than over the air) safeguards superior transmission security.

Works with desk phone
and softphone*

Certified for Cisco Jabber:

Works with :

You're in control

Several Handset 450 features enhance user-convenience, allowing you to have firm control. Lift the handset to answer a call. Put it back in the cradle to end it. Easy controls allow you to mute calls and adjust volume. A beep-tone will let you know if there is a call waiting. The rechargeable battery gives you up to 15 hours talk time.

Reasons to choose

Jabra Handset 450

- Get the combined benefits of a convenient wireless handset and new, softphone-based UC technology
- Enjoy ease of installation and use with USB-based, plug-and-play solution
- Experience professional sound quality, with wideband audio

GN Making Life Sound Better

Jabra Handset 450 - How it works

01 How to connect

Jabra Handset 450's plug-and-play solution ensures that installation is truly hassle-free. Connect the USB cable to the handset cradle, and then plug the USB cable into any available USB port on your desk phone or your PC/Softphone. (Device dependent. See compatibility details)

02 How to use

Jabra Handset 450 will always be powered on when docked in the handset cradle, and the cradle is plugged into a USB port. To turn off the Handset 450, press and hold (5 secs) the mute microphone button. Press the mute microphone button again, to turn back on. Lift the handset to answer a call. Put it back in the cradle to end it. Easy-controls allow you adjust volume and to mute calls.
