Welding Group Consortium is the leader of the Kazakhstani market, No. 1 in the segment of supplies of high-quality welding materials and the latest equipment.

The company is the only Kazakhstani manufacturer of the modern inverter welding equipment under WeldProfi brand that is approved and used by the leading Kazakhstani and foreign companies to implement the largest oil and gas projects of the Republic of Kazakhstan.

In addition, the Consortium make major deliveries to Uzbekistan and Kyrgyzstan.

Main principles of our work

**We are not alone on the market of welding equipment
but we are the BEST!**

Quality from professionals

On the basis of distribution agreements we reached impressive successes in the supply of equipment and consumables of widely known global manufacturers, close partnership and positive history of work allow us to provide to our customers flexible conditions of deliveries and payment.

Quality for professionals

Working with us, customers are using our experience on the selection of equipment and technologies of global manufacturers in relation to its objectives, the solutions of which become a matter of technique and skill. Our experts' qualified advice is one of the links in the quality assurance of products and services for our customers.

Support manning

Warrantee service.
The shortest terms of repair.
Huge choice of spare parts.
Equipment diagnostics.
Responsibility for repair.

Our logistics

The efficient supply chain for the most exacting clients, just in time and with the minimum expenses.

Welding Solutions LLP is a member of
Kazakhstani Association of oil service companies
and Kazakhstani Association of Welding named Kazweld

The 16th of March, 2017 the company Welding Solutions LLP was officially registered at the vendor's database named ALASH in online regime for oil and gas operators in Kazakhstan.

Staff development

1. advanced training;
2. application of motivational payment schemes;
3. providing employees with social package;
4. providing mobile communication;
5. free transport service for employees to work;
6. opportunities for rest and recreation.

Health protection and safe working conditions

1. labor protection and safety engineering;
2. payment of bonuses;
3. motherhood and childhood maintenance.

Sponsorship and charity

1. sponsorship of local cultural, educational and sporting organizations and events;
2. participation in charity events.

Honest business practice

1. informational openness policy of company in relation to owners, suppliers, business- partners, clients and interested parties;
2. program implementation of cooperation with state bodies, consumers associations, professional associations and other public organizations.

Nature protection activity

1. organization of ecologically safe production process;
2. actions on landscape gardening and «community work days».

Welding Group Consortium actively participates in charitable projects. The sponsor support for the modernization of material and technical base of the Kazakhstani welding institute at Karaganda State Technical University is one of the latest. It should be noted that on December 10, 2015 the conference was held at the University which was dedicated to the 100th anniversary of the rector of KarGTU, academician Saginov A.S. During this conference, Rector of the University, Gazaliev Arstan Maulenovich presented the General director Alexandr Gennadievich the letter of thanks and an anniversary medal for a deep contribution to development of the university.

The main values for us are:

- Safety of employees, customers and others;
- Health protection and cultivation of a healthy lifestyle;
- Environment protection;
- Quality and safety of the supplied welding materials, equipment and services.

To achieve the objectives we implement our obligations:

- comply with the requirements of legislation in the field of occupational safety, labor protection and environmental protection;
- conduct training and staff development, the valuable knowledge gained;
- to provide our employees with overalls, tools and equipment conformed to international standards;
- to provide customers with reliable and safe welding equipment, high-quality materials for welding;
- to conduct an assessment and analysis of the quality for delivered goods, to work closely with customers.

It's easy to make the first step!
