Mission:

We come to the market as a technological partner for the industrial sector, offering our customers the best solutions for the selection of professional equipment, high-quality tools, original spare parts and materials for responding to oil spill from world manufactures in any quantity and as soon as possible providing the most complete package of documents both within the framework of Kazakhstan and international requirements.

Golden principles of the company:

- Search for optimal opportunities for solving customer
- Willingness to consider and provide solutions in accordance with request of Customer based on rationality, efficiency, safety and functionality
- The principle of decency and responsibility in the process of business

Benefits:

Over 10 years of industrial supply experience.

Customer-oriented employees understand the challenges facing modern manufacturing.

Our goods available in Almaty and Atyrau allow customers to meet the deadlines.

Our service center helps not to delay production without equipment.

Integrated supply of enterprises based on rationality, efficiency, safety and functionality helps customers accelerate and facilitate the timely provision of equipment.

Full package of accompanying documents both within Kazakhstan and within framework of international requirements.

High quality products are our pride for our customers.

Distribution agreements with manufacturers save Clients money.

ISO 9001:2015 implemented system increases customer confidence **CRM** organizes and manages contract execution.

Torc LLC manufacturer of hydraulic and pneumatic torque wrenches. Year of foundation company 1986 in Mauva, New Jersey, USA

The main direction of company:

- Production of hydraulic products
- Production of pneumatic products

The main advantages of company:

- Torc LLC gives a 13 month quality guarantee for all products
- Availability certificate ISO 9001
- Each instrument comes with a calibration certificate

Assortment of company TORC:

- Hydraulic products (till 71 180 Nm)
- Pneumatic products (till 10 894 Nm)
- Battery products (till 949 Nm)
- Cordless tool
- High pressure pumps
- Accessories

vortex
your technology partner

X-Spark manufacturer of industrial and intrinsically safe hand tools. Year of foundation company 1983 in Botou city, Hibey province, China

The main direction of company:

- Manufacturing from aluminum alloy (Al-Br)
- Manufacturing from beryllium alloy (Be-Br).
- Titanium tools
- Stainless steel tools
- Insulated tools

The main advantages of company:

- Own technology research and development center
- Engineering center
- Center of metrological technologies of national defense
- Availability certificate Royal UKAS, TUV, GS и FM
- All tools are approved Framer Non – Sparking Tools

Assortment of company X-Spark:

- Intrinsically safe tools
- Special steel tools
- Copper and brass hummers
- Special tool kit
- Titanium tools
- Insulated tools
- Stainless steel Anti-Magnetic tools

vortex
your technology partner

InnoTorc GmbH manufacturer of electric torque wrenches. Year of foundation company 2014 in Geisenfeld, Germany

The main direction of company:

- Production of electric torque wrenches

The main advantages of company:

- Innovations in Electrical Equipment
- Innovation in Torque equipment
- Center for research and development field of technology for study of metal properties

Assortment of company InnoTorc GmbH:

- Electric products (till 8 000 Nm)
- Battery products (till 3 500 Nm)
- Torque multiplier (from 270 to 3 510 Nm)
- Motorized key for gate valves
- Hydraulic pumps
- Backup keys

vortex
your technology partner

Unior d.d. manufacturer of industrial hand tools. Year of foundation company 1919 in Zreče, Slovenia

The main directions of company:

- Forged products
- Powder metallurgy
- Professional hand tool
- Special machines

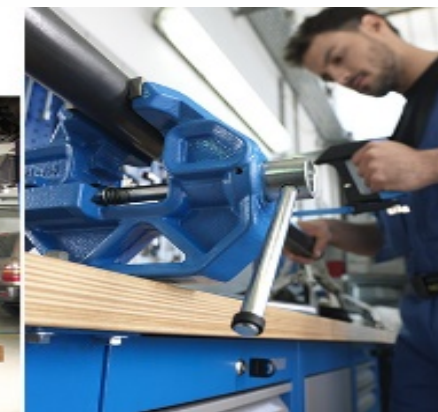

The main advantages of company:

- Own metallurgical plant
- Development, production and processing is carried out using the latest machines
- Material heat treatment
- Surface protection material
- Ergonomic shape
- Cold forging

Assortment of company Unior d.d.:

- Wrenches
- Sockets and accessories
- Pliers
- Plumbing tools
- Shears
- Screwdriver
- Hammers, punches and chisels
- Pullers
- Measuring tools
- Pneumatic tools and accessories
- Insulated tools
- Automotive tools
- Sets of tools
- Workshop equipment
- Safe tools at heights

vortex
your technology partner

New World Technologies Inc. manufacturer of electric and pneumatic torque wrenches. Year of foundation company 1995 in Abbotsford, British Columbia, Canada

The main directions of company:

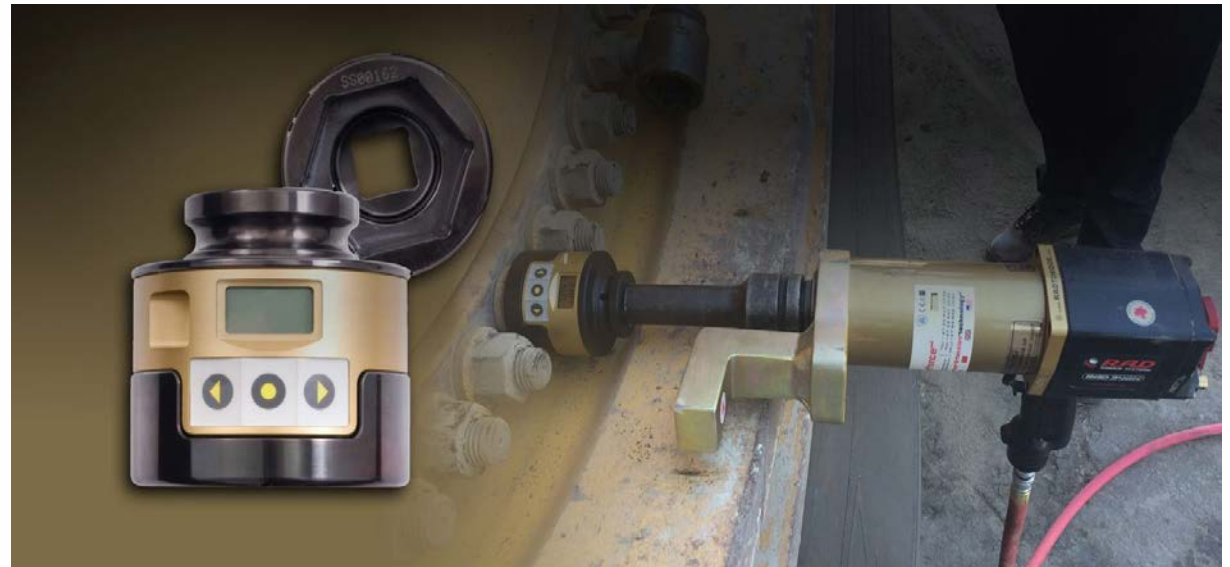

- Production of electric wrenches
- Production of pneumatic wrenches

The main advantages of company:

- Own laboratory
- Cooperate with mining, oil and gas, aerospace railway, wind energy industrials

Ассортимент компании New World Technologies Inc.:

- Pneumatic products (till 15 000 Nm)
- Pneumatic products with Bluetooth module (till 15 000 Nm)
- Battery products (till 7 000 Nm)
- Electric products (till 4 000 Nm)
- Smart sockets (read information till 16 000 Nm)

vortex
your technology partner

OMEGA Mechanix manufacturer of industrial tools. Year of foundation company 1971 in Taipei, Taiwan

The main direction of company:

- Hand tools
- Handling equipment
- Storage systems

The main advantages of company:

- Availability certificate ISO 9001, TUV, AS, ANSI, CE
- Wide range of over 6 000 items

Assortment of company OMEGA Mechanix:

- Wrenches
- Sockets and accessories
- Pliers
- Shears
- Screwdrivers
- Hummers and punches
- Pullers
- Мерительный инструмент
- Pneumatic tools
- Automotive tools
- Sets of tool
- Storage trolleys and packages

vortex
your technology partner

BVA Hydraulics manufacturer of hydraulic lifting equipment. Year of foundation company 1972 in Kansas city, Missouri, USA

The main direction of company:

- Production hydraulic lifting equipment

The main advantages of company:

- Lifetime warranty for each product in case of defects in material or complaints about quality
- Worldwide authorized warehouse system
- Innovator of hydraulic products in industrial field
- Ability to develop custom equipment
- Availability certificates ISO 9001, ASME B30.1, ANSI B40.1, SAE 100
- Hydraulic product innovation
- Increase in stock

Assortment of company BVA Hydraulics:

- Hydraulic cylinders
- Hydraulic pumps
- Bottle jacks
- The presses
- Tools
- Service kits
- Accessories
- Lifting bags and accessories

vortex
your technology partner

FPT-Fluid Power Technology manufacturer of high pressure hydraulic equipment. Year of foundation company 1966 in Consent, Italy

The main direction of company:

- Production of high pressure hydraulic equipment
- 3D modeling
- Personnel training and advanced training for professional management and service

The main advantages of company:

- Availability certificate ISO 9001, OHSAS 18001, UNI EN ISO 9712
- Using stainless steel aisi300 и aisi400

Assortment of company F.P.T.:

- Hydraulic cylinders
- Lever pumps
- Hydraulic aggregates
- Hydraulic tensioners
- Hydraulic clamping wrenches
- Hydraulic nuts
- Hydraulic splitters
- Multi-purpose cylinders
- Hydraulic brushes
- Hydraulic presses
- Testing equipment
- Industrial clamping system

vortex
your technology partner

Westward manufacturer of industrial tools. Year of foundation company 1963 in Illinois, USA

The main direction of company:

- Hand tool
- Pneumatic tool
- Automotive tool
- Retail store equipment
- Handling equipment

The main advantages of company:

- Availability certificate ISO 9001
- Wide range of over 12 000 items

Assortment of company Westward:

- Wrenches
- Screwdrivers
- Sockets
- Hummers and punches
- Torque tool
- Measuring tools
- Storage trolleys and packages

The Kito logo is displayed in a bold, black, sans-serif font, centered within a solid yellow square.

Kito manufacturer of lifting equipment. Year of foundation company 1932 in Omori city, Tokyo, Japan

The main direction of company:

- Production of loading and unloading equipment

The main advantages of company:

- Availability certificates ISO 9001, ISO14001,
- It has 60% of Japanese market, 40% of USA market and 25% in China
- Own metallurgical plant in 5 countries
- Material processing innovation
- Increase production
- Using advanced technology
- Improving operational productivity and efficiency

Assortment of company KITO:

- Manual chain hoists
- Lever lifts
- Electric chain hoists
- Air chain hoists
- Rope hoists
- Various components for cranes
- Integrated crane systems
- Ergonomic chain hoists
- Warehouse equipment and components for them
- Additional solutions
- Aluminum and steel rail production line

vortex
your technology partner

SUPER-EGO TOOLS, s.l.u. manufacturer of pipe maintenance tools. Year of foundation company 1946 in Eibar, Spain

The main direction of company:

- Equipment manufacturing
- Pipe production
- Soldering equipment production
- Hand tools

The main advantages of company:

- Over the past 15 years 5% of annual budget invested in new products, which means that catalog updated by 25% every 5 years
- R&D leader
- Using production systems Smed, Kaizen, Kanban
- Availability certificate ISO 9001/14001

Assortment of company Super Ego:

- Plumbing tools
- Screwdrivers
- Pliers
- Wrenches
- Burners
- Water pumps
- Vacuum pumps
- Refrigerant recovery device

vortex
your technology partner

WW Grainger supply equipment for industrial sector. Year of foundation company 1927 in Chicago, Illinois, USA

The main directions of company:

- Supply industrial equipment and safety products

The main advantages of company:

- Catalog have over 1.5 million items

Assortment of company WW Grainger:

- Abrasive materials
- Fasteners
- Hydraulic
- Laboratory supplies
- Lightning
- Materials
- Indoor equipment
- Pneumatic
- Pumps
- Outdoor equipment
- Maintenance vehicles

vortex
your technology partner

Cattini manufacturer of hydraulic jacks and impact wrenches. Year of foundation company 1969 in Gattatico, Italy

The main direction of company:

- Industrial impact wrenches
- Air hydraulic jacks
- Pneumatic bags
- Stability solutions

The main advantages of company:

- Availability certificates ISO 9001, MACHINE DIRECTIVE 93/44EEC, EN1494, 98/37/EEC, 2006/42/EEC.
- Maximum lifting of hydraulic jacks is 150 t
- 3D modeling
- Possibility to extending warranty period up to 3 years
- Using stainless steel

Assortment of company Cattini:

- Axial racks
- Hydraulic power plants
- Pneumatic jacks
- Manual hydraulic jacks
- Portable jacks
- Pneumatic suspension jacks
- Air pneumatic jacks
- Mechanical wheel trolleys
- Industrial impact wrenches
- Heavy duty pneumatic jacks
- Wheel pneumatic hydraulic jacks

vortex
your technology partner

Blackwoods

Blackwoods supply equipment for industrial sector. Year of foundation company 1879 in Sydney, Australia

The main directions of company:

- Supply industrial equipment and safety products

The main advantages of company:

- Catalog have over 200 thousands items

Assortment of company Blackwoods:

- Abrasive materials
- Clothes
- Footwear
- Fasteners
- Lubricants
- Power tools
- Personal protective equipment
- Hand tools
- Measuring instruments
- Welding
- Automotive industry

vortex
your technology partner

Chemtex manufacturer of materials for the elimination, containment and conveyance petroleum products. Year of foundation company 1999 in Milledgeville, GA, USA

Assortment of company Chemtex:

- Absorbents for spill collection
- Spill response kits
- Spill response kits for ocean and sea
- Granules and neutralizers for collecting spill
- Cleaners and degreaser
- Spill response kits for storm water
- Personal protection
- Secondary containment kits

The main direction of company:

- Innovation and use absorbent materials for spill response
- Accessories for any sorbents
- Secondary protection manufacturing
- Production personal protection materials

The main advantages of company:

- Own chemical laboratory
- 24/7 technical support
- Member of International spill control association
- Member of American spill control association
- Collaboration with ExxonMobil

vortex
your technology partner

Eagle Manufacturing Company manufacturer of security systems for industrial industry. Year of foundation company 1894 in Wellsburg, West Virginia, USA

The main direction of company:

- Production protective structures for industrial industry
- Security systems for industrial industry
- Security systems for automotive industry

The main advantages of company:

- Cooperation with USA Government
- Cooperation with largest manufacturing enterprises in USA

Assortment of company Eagle Manufacturing Company:

- Security cabinets
- Security rooms
- Spill containment
- Protective bumpers
- Bins for industrial waste
- Ramp
- Building protection systems
- Spill platform

vortex
your technology partner

Meclube manufacturer of equipment for injection and pumping lubricants. Year of foundation company 1998 in Gonzaga, Italy

The main direction of company:

- Various tools for injection and pumping tools

The main advantages of company:

- Own chemical laboratory
- Possibility of custom production
- Manufacturing innovation
- 24/7 technical support
- Availability certificates ISO 9001

Assortment of company MECLUBE:

- Vacuum cleaners for oil
- Dispenses tools for oil and grease
- Stainless steel automatic hose reels
- Automatic tire inflation pumps
- Professional oil drain equipment
- Electric pumps for diesel fuel
- Diaphragm pumps for any liquids
- Accessories for all products

vortex
your technology partner

Emiliana Serbatoi manufacturer of systems for fuel transportation and storing. Year of foundation company 1960 in Modena, Italy

The main direction of company:

- Production fuel storage systems
- Production tanks for fuel and drinking water
- Conveyance

The main advantages of company:

- Cooperation with largest oil refineries of Europe
- Cooperation with UN
- Dedicated management and technical support
- Member of international association ARA Rental
- Member of international association Pei

Assortment of company Emiliana Serbatoi :

- Transport tanks
- Tank dispenses
- Underground tanks
- Dispenser systems
- Control systems
- Water tanks
- Oversize motor pumps
- Stainless steel tanks
- Tow pumps
- Soft tanks
- Fuel storage container

vortex
your technology partner

B-SAFETY GmbH manufacturer of security systems for industrial facilities. Year of foundation company 1949 in Hamburg, Germany

The main directions of company:

- Eye souls
- Emergency souls
- Emergency lightning
- Individual protection

The main advantages of company:

- Availability certificates DIN EN ISO 9001, DIN EN 15154-2:2006 и ANSI Z358.1-2014
- Production any product according technical specifications from customer

Assortment of company B-SAFETY GmbH:

- Industrial security showers
- Hand showers for eye
- Safety showers
- Disinfecting showers
- Emergency lightning
- Safety lights
- Led lights
- Vandal-proof lights
- Personal security products
- Personal care products

vortex
your technology partner

Driver Industrial manufacturer of safety equipment for industrial facilities. Year of foundation company 2004 in Phoenix, Arizona, USA

The main directions of company:

- Safety products for mining industry
- Safety products for commercial industry

The main advantages of company:

- Security innovation
- Cooperate with American industrial companies
- Annual certification of company employers

Assortment of company Driver Industrial:

- Wheel looks
- LED displays
- Reflective signs/plates
- Flashing lights
- Special clothes
- Safety flags
- LED beacons
- Protective equipment
- Safety accessories

vortex
your technology partner

WatchGas manufacturer of gas detection equipment. Year of foundation company 2018 in Rotterdam, Netherlands.

The main directions of company:

- Production equipment for all gas detection situations

The main advantages of company:

- Biggest logistic hub in Europe
- Full network distributors through world

Assortment of company Drager:

- Portable gas detection equipment
- Fixed gas detection equipment
- Accessories

vortex
your technology partner

Hoeffmann Group supply equipment for industrial sector. Year of foundation company 1919 in Munich, Germany

The main directions of company:

- Supply industrial equipment and safety products

The main advantages of company:

- There are representative offices in more than 50 countries in the world
- Catalog have over 500 thousands items

Assortment of company Hoffmann Group:

- Monolithic cutting tools
- Prefabricated cutting tools
- Auxiliary tools
- Measuring tools
- Grinding tools
- Hand tools
- Power tools
- Tool furniture and storage facilities

vortex
your technology partner

Metabo manufacturer of industrial tools. Year of foundation company 1923 in Nürtingen, Germany

The main directions of company:

- Solutions for construction and repair work
- Metalworking and metalworking solutions

The main advantages of company:

- Using the highest quality materials
- Metabo gives a 3 year quality guarantee for all products
- Innovation dust removal system
- Advanced engine manufacturing
- Over 35 tools on battery

Assortment of company Metabo:

- Cordless tools
- Cutting, milling and sanding tools
- Drilling, screwing, chiseling tools
- Vacuums and extractions
- Swas
- Semi-stationary tools
- Pumps and pumping station
- Pneumatics
- Accessories
- Combination sets

vortex
your technology partner

Bohrcraft manufacturer of drilling tool. Year of foundation company 1957 in Remscheid, Germany

The main direction of company:

- Premium line with highest level of quality
- Pro line with high level of quality
- Standard line for every day needs and longevity

The main advantages of company:

- Own testing laboratory
- Using the highest quality materials

Assortment of company Bohrcraft:

- Drills
- Special drills
- Repair kits
- Deburring tools
- Taper shank drills and accessories
- Thread cutting tool
- Brick and concrete drills
- Bits and accessories
- Special tools
- Storage facilities

vortex
your technology partner

DeWALT manufacturer of industrial tools. Year of foundation company 1924 in Baltimore, Maryland, USA

The main directions of company:

- Power tools
- Garden equipment
- Consumables and accessories
- Storage systems

The main advantages of company:

- Using highest quality materials
- DeWALT gives a 3 year quality guarantee for all products
- More than 120 authorized services in CIS and European Union
- More than 30 tools on battery

Assortment of company DeWALT:

- Cordless tools
- Hummers
- Planners
- Nailing and assembly guns
- Vacuums
- Saws
- Blowers
- Combo kits
- Станки
- Polishers, shears and nibblers
- Измерительные приборы и инструменты

vortex

SwatyComet manufacturer of cutter, grinding, flap wheels and brushes for cleaning weids. Year of foundation company 1886 in Maribor, Slovenia

The main direction of company:

- Premium line with highest level of quality
- Pro line with high level of quality
- Special line for difficult materials

The main advantages of company:

- Innovative developments in the production of cutting and grinding wheels
- Availability certificates oSa (EN12413, EN13743, EN 13236), FEPA, ANSI B 7.1
- All products pass side load tests

Assortment of company SwatyComet:

- Thin cutting discs
- Special flap grinding discs
- Cutting disks special for railway rails and sleepers
- Large cutting discs
- Flexible petal discs
- Grinding discs
- Cutting discs

vortex
your technology partner

Lincoln Electric manufacturer of welding equipment and related materials. Year of foundation company 1895 in Euclid, Ohio, USA

The main direction of company:

- Release product for arc welding
- Release product for robotic welding
- Release product for plasma welding
- Release product for gas cutting

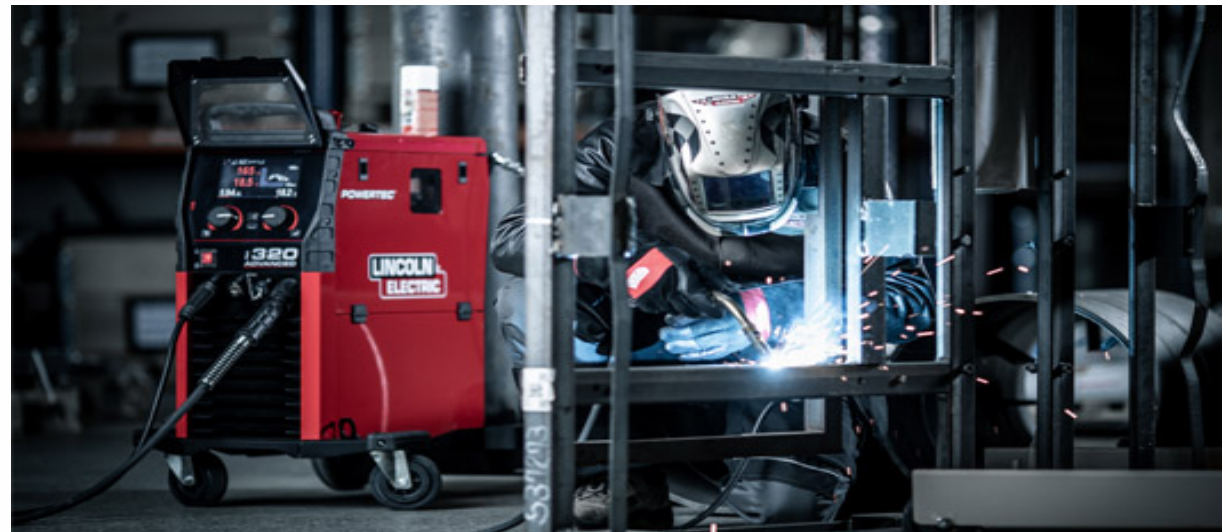

The main advantages of company:

- Availability certificates AWS D1.8, AWS D1.1
- Own welding school founded in 1917 year
- Innovation in field of welding and cutting

Assortment of company Lincoln Electric

- Manual arc welding machines
- Argon arc welding machines
- MIG/MAG welding machines
- Universal welding machines
- Devices for several operators
- Wire feeders
- Submerged arc welding machines
- Plasma cutting systems
- Welding torches and current leads
- Welding accessories
- Welding smoke extraction systems
- Air purifying respirators
- Smoke hoods

vortex
your technology partner

Osborn manufacturer of brushes for surface cleaning/ Year of foundation company 1887 in Cleveland, Ohio, USA

The main direction of company:

- Construction sphere
- Cleaning of drill holes and boreholes
- Production of transport brush rollers
- Brushes for magnetic flaw detection control devices
- Production for roller systems for heavy duty industry
- Production of brushes for stripping welds

Assortment of company OSBORN:

- Cutting edge brushes Novofil
- Woodworking solutions
- Abrasive disc brushes
- Polishing brushes
- Strip brushes
- Broomate Push-Broom
- Paste and emulsions for polishing
- High performance brushes
- Special snow protection solutions for railway
- Stuffed brushes
- Brushes for mechanical finishing
- Load runners
- Artificial glass

The main advantages of company:

- Production any product according technical specifications from customer, any type, size and various materials
- Member of international association IPLOCA
- Innovative solutions in this sector
- The only manufacturer in this sector with TUV certification

vortex
your technology partner

Rapmet manufacturer various metal construction. Year of foundation company 1977 in Klodzko, Poland

The main direction of company:

- Grates for platforms
- Metal containers
- Fencing systems
- Steel garages

The main advantages of company:

- All products making with anti-corrosion treatment by hot and galvanic galvanizing method

Assortment of company Rapmet:

- Pressed and welded gratings
- Stainless steel gratings
- Stairs
- Fences
- Mobile fencing for construction area
- Welded nets
- Containers and special pallets
- Other special metal constructions according customers project

vortex
your technology partner

Worldpoly manufacturer welding equipment for plastic pipes. Year of foundation company 1949 Lynbrook, Australia

The main direction of company:

- Production of plastic pipes
- Fittings
- Welding equipment for pipes from PE, PPE and PVC from 40 to 3000 mm, from 1 ½ to 120"

The main advantages of company:

- Spare parts and accessories for all products even for earliest models
- Availability certificates ISO 9000
- 24/7 technical support
- Availability of equipment in both of measurement systems

Assortment of company Worlpoly:

- Equipment for working in metric system
- Equipment for working in imperial system
- Stationary equipment in metric system
- Stationary equipment in imperial system
- Electrofusion welding equipment
- Valves
- Accessories

vortex
your technology partner

STAR Piping Systems GMBH manufacturer of polymer pipe systems. Year of foundation company 1996 Wesel, Germany

The main direction of company:

- PP fittings
- PE fittings
- Equipment
- Prefabricated PP and PE
- PE pipe systems

Основными преимуществами компании является:

- Production any product according technical specifications from customer or custom desing
- Availability certificates DIN EN ISO 9001, PAS 1075, EN 12201&EN 1555

Assortment of company STAR Piping Systems GMBH:

- Seamless bent bends
- Flange connection
- Hydrant connection
- Universal equipment for electrofusion welding
- Oxide stripping devices
- Electrofusion fittings
- Heads for broach
- Welded fittings
- Transitions

vortex
your technology partner

PSI Products GmbH manufacturer of pipeline fittings. Year of foundation company 1968 in Messingen, Germany

The main direction of company:

- Gaskets
- Support rings/cuffs
- Flange gaskets
- Heat-shrinkable materials, pistons
- Mechanical and corrosion protection pipelines

The main advantages of company:

- Availability certificates ISO 9001, FHRK GE 101
- Member of DVGW, BFW, Figawa, FHRK, Iro

Assortment of company PSI:

- Rubber flange gaskets
- Pistons
- Penetration systems
- O-rings
- Embedded sleeves
- Support rings
- Saddle-shaped pipe support
- Corrosion protection tape
- Transition sealing cuffs
- Sealing rings
- Hole covers insulation
- Waterproofing collars

vortex
your technology partner

Tuff-N-Nuff manufacturer of protective coating for pipes. Year of foundation company 2009 in St. Louis, Missouri, USA

The main directions of company:

- Production PVC protective coating

The main advantages of company:

- Innovation in coating production
- Surface protection against aggressive sphere

Assortment of company Tuff-N-Nuff:

- Protective rolls
- Protective gaskets
- Protective wipes

vortex
your technology partner

Dixon manufacturer of fittings and valves. Year of foundation company 1916 in Philadelphia, Pennsylvania, USA

The main direction of company:

- Dixon Bayco – production of leak detection products
- Dixon Brass – production of brass fittings, fittings, valves, steel and aluminum pipes
- Dixon Eagle – production of bellows and butterfly valves
- Dixon Fire – production on fire safety equipment
- Dixon Quick Coupling – production of hydraulic and pneumatic quick fittings
- Dixon Sanitary – production of sanitary fittings, valves and pumps from stainless steel 304 and 316L
- Dixon Specialty Products – production reinforced hoses and fittings

Assortment of company DIXON:

- Engineering fluid transfer
- Sanitary fittings
- Fitting for industrial hoses
- Hose connection system
- Hydraulic fittings
- Pneumatic fittings
- Vacuum fittings
- Hoses and branch pipes
- Pipe fittings
- Pumps
- Valves

DICSA manufacturer stainless steel fittings and components for hydraulic and pneumatic systems. Year of foundation 1989 in Zaragoza, Spain

DICSA

The main direction of company:

- Hydraulic and pneumatic connectors
- Hydraulic and pneumatic components
- Stainless steel fittings
- Coatings

The main advantages of company:

- Production any product according technical specifications from customer
- Innovation in manufacturing and processing
- Service centers in 4 countries
- Availability certificates ISO 9001, EN 10204

Assortment of company Dicsa:

- Flexible connectors
- Industrial connectors
- Pipe connectors
- Pneumatic connectors
- Pneumatic components
- Stainless steel materials
- Rubber film
- Silicone coatings
- Rubber coatings
- Flexible PVC
- Artificial glass
- Matts and rolls

Armacell manufacturer of thermal insulation materials. Year of foundation company 1899 in Pittsburgh, Pennsylvania, USA

The main directions of company:

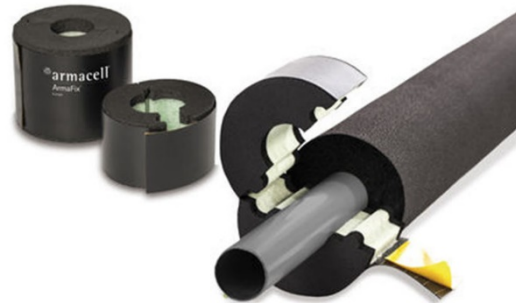

- ArmaFlex
- ArmaGel
- ArmaForm
- Acoustic solutions
- Accessories

The main advantages of company:

- Closed cell thermal insulation material with high flexibility, high water vapor diffusion resistance and low thermal conductivity, as well as antimicrobial protection Microban®.

Assortment of company Armacell:

- Heating and water supply
- Refrigeration and air condition systems
- Food industry
- Solar application
- Soundproofing
- Using in manufacture of equipment
- Using insulating layer in sandwich panels
- Heating and ventilations
- Using in cryogenics (using on low temperatures)
- Using in pharma industry and chemical technology industry
- Using in shipbuilding industry and petrochemical industry

vortex
your technology partner

K-FLEX manufacturer of heat and sound insulating materials. Year of foundation company 1989 in Roncello, Italy

The main directions of company :

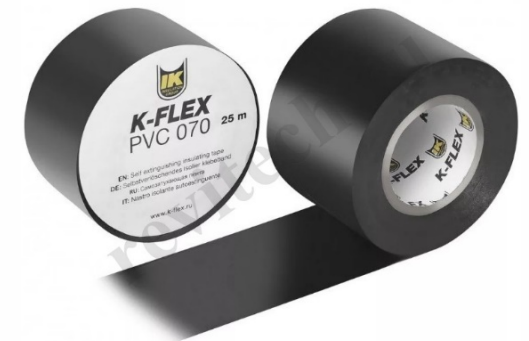

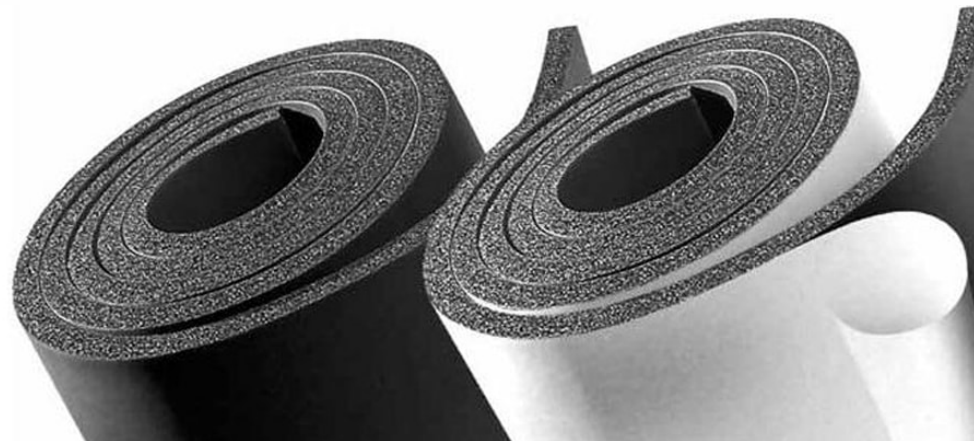

- Thermal insulation
- Soundproofing insulation
- Coating systems

The main advantages of company:

- Using in temperature range from -200°C to +175°C
- Availability certificates BS476, DIN4102, NF-FEU, ASTM
- Closed cell thermal insulation material with high flexibility, high water vapor diffusion resistance and low thermal conductivity
- Main component of material is polyurethane foam
- Ready-made solutions for various industries

Assortment of company K-FLEX:

- Elastomers
- Professional fur coats
- Accessories
- Coating systems
- Thermal insulation
- Vibration insulation
- Soundproofing insulation

vortex
your technology partner

Sika AG manufacturer of chemical products for gluing, sealing, cushioning, reinforcing and protecting structures in construction area and automotive industry. Year of foundation company 1910 in Bar, Switzerland

The main directions of company:

- Industry
- Distribution
- Construction

The main advantages of company:

- Own laboratories around the world
- Selection of components for individual customer order

Assortment of company Sika:

- Cement production
- Concrete additives
- Repair and protection concrete structures
- Floors
- Filling and anchoring solutions
- Sealing
- Protect coatings
- Roofing materials
- Structural reinforcement
- Waterproofing
- Elastic railway mount
- Plaster and dry construction additives

Tovarna Meril Kovine d.d. manufacturer of measuring tools. Year of foundation company 1904 in Slovene Hradec, Slovenia

The main direction of company:

- Libra
- Levels
- Measuring instruments
- Laser tools

Assortment of company Tovarna Meril Kovine:

- Levels
- Profiles
- Angle meters
- Metal rulers
- Wooden rulers
- Measuring roulettes
- Laser meter
- Ultrasonic meter
- Calipers
- The rule

The main advantages of company:

- Using computer-optical control devices
- Availability certificate ISO 9001, SQ
- Instrument innovation
- Own production of plexiglas
- Using laser cutting

vortex

Reka Cables manufacturer of cable products. Year of foundation company 1961 in Hyvinkää, Finland

The main directions of company:

- Mounting cable
- Control cable
- Fire resistance cable
- Power cable

The main advantages of company:

- Power cables producing in range from 75 V to 170 kV for construction of cable networks of any type and scale
- Availability certificates ISO 9001, ISO 14001 и OHSAS 18001

Assortment of company Reka Cables:

- Mounting cable
- Standard mounting cable
- Control cable
- Signal cable
- Cooper power cable
- Aluminum power cable
- Medium voltage cable
- High voltage cable

vortex

Kroll GmbH manufacturer of ventilation systems. Year of foundation company 1963 in Kirchberg an der Murr, Germany

The main directions of company:

- Heating and cooling air
- Air purification and dehumidification
- Solid fuel production

The main advantages of company:

- Availability certificates ISO 9001, DIN EN 1090, DIN EN 1090/ EXC4, DIN 3834
- Using laser, plasma and autogenous cutting
- Production any product according technical specifications from customer

Assortment of company Kroll GmbH:

- Cabinets
- Panel
- Special components
- Mobile heating
- Mobile air heaters
- Mobile heating guns
- Stationary warm air generator
- Water heating systems
- Cleaners
- Dehumidifiers

vortex

OFM Top Line manufacturer of spare parts for construction equipment. Year of foundation company is 1960 in Bologna, Italy

The main directions of company:

- Spare parts for Caterpillar, Komatsu, Volvo, Hitachi, JCB, Perkins, Mitsubishi, ZF and Carraro

The main advantages of company:

- More than 80000 spare parts in stock every day
- Own production
- Using the latest production machines

Assortment of company OFM Top Line:

- Spare parts for chassis: track chain, support rollers, guide wheels, segments and sprockets, tension mechanism etc.
- Suspension details: balance beams, yoke, chippers, bushings etc.
- Pins and bushings for work equipment
- Working equipment
