Start up

Unpack your DVC130 and plug in the power to power on the DVC130.
When you see the below screen is shown, the DVC130 is ready for use.

In DVC130 desktop screen, the function buttons are list at bottom and video view is at center (click  button can switch to camera preview).

Using DVC130

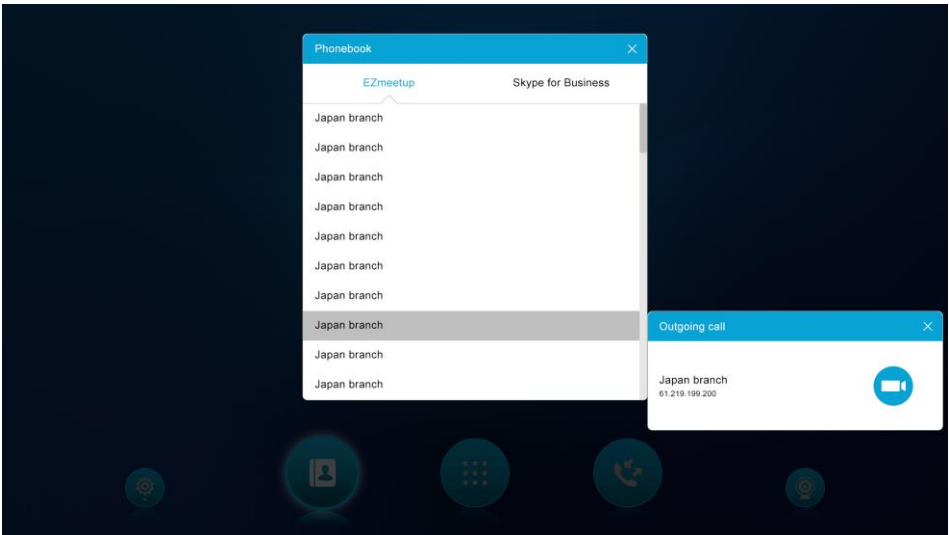

Make a call

User has 3 ways to make a call – from phonebook (EZMeetup and Skype for Business), direct dial, and from call history.

Make a Call from Phonebook

DVC130 will load the phonebook of EZMeetup and contacts of Skype for Business into phonebook. If your phonebook of DVC130 is empty, please contact your administrator for setup.

1. Click  button and phonebook will pop-up.
2. Select the phonebook – EZMeetup or Skype for Business.

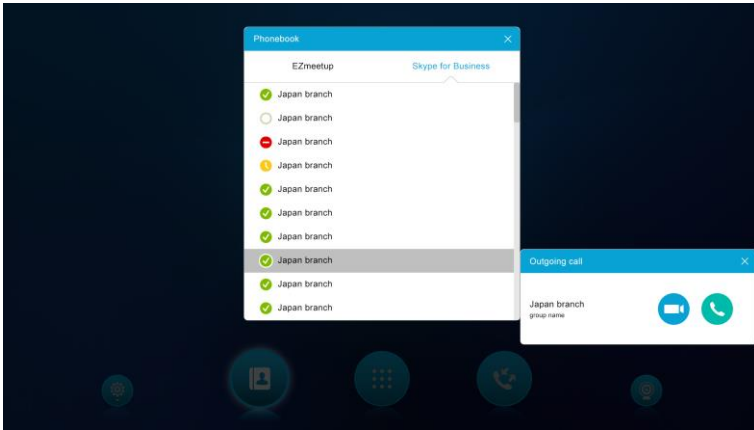

3. Select the contact and select  button to make a video call or select  button to make an audio call.

[Note]

1. The audio call only support for Skype for Business.
2. Contacts status on Skype for Business:
 - **Green:** Online and available for a call
 - **Red:** Busy or on the phone call
 - **Orange:** Away

■ white: Offline

4. When call is successfully connected, the live video will show.

[Tip] The function bar will hide after 3 seconds inactivation. Touch the screen can bring up the function bar.

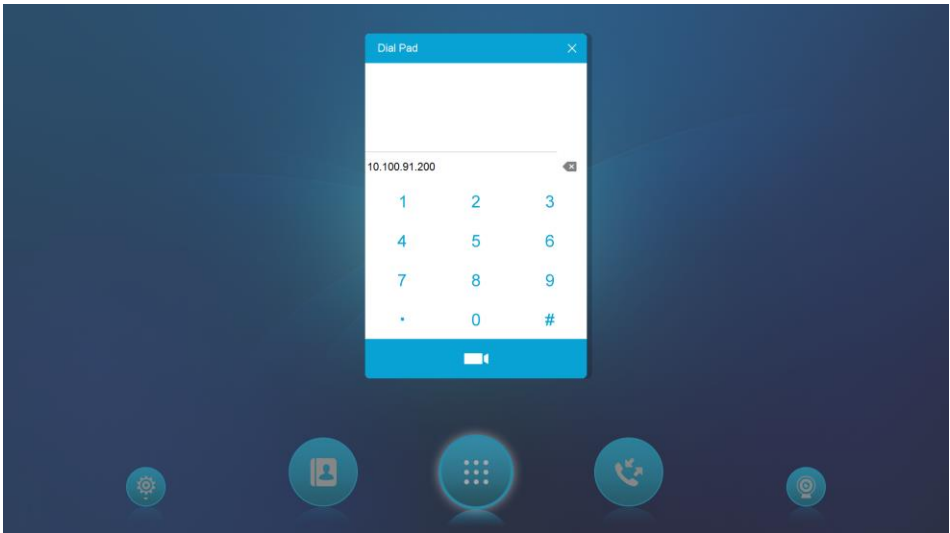

EZMeetup call screen

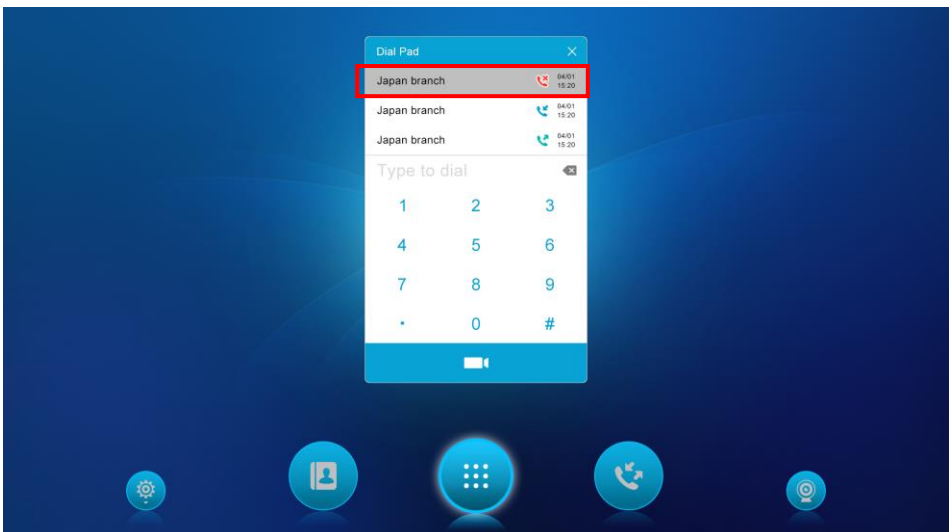

Using Dial Pad

User can directly enter the IP address to make a call.

1. Select  button and dial pad will pop-up.
2. Enter the IP address and select  to call.

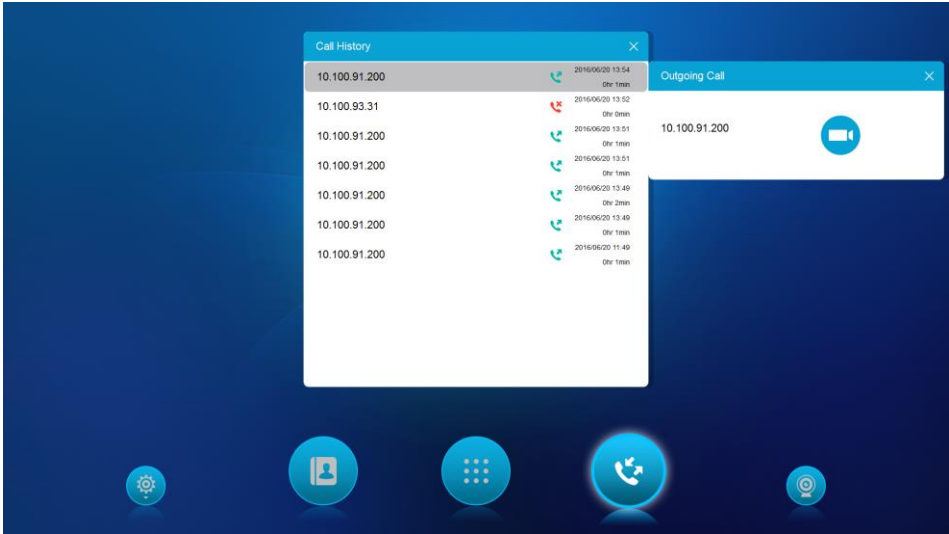

3. The dial pad will keep the last 3 calls; user also can select it and make a call.

Make a Call from Call History

User can make a call from call history list.

1. Select  button and call history dialog will pop-up.
2. Select the history call and select  to call. If call history is a Skype for Business call, can also choose to make an audio call.

Hang up a Call

Select  button to disconnect a call.

Answering a call

When a call is coming, select  (video call) or  (audio call) to answer the call. The Audio call only support for Skype for Business call.  is to reject the incoming call.
