LV317005		LOVETOY double-layer TPE simulation sliding skin penis 2.0 (full-inclusive egg)-This is a penis that completely subverts the tradition. It has improved the egg on the basis of its predecessor and made it more realistic. Sliding the skin and adding the keel not only makes the skin feel soft on the outside and firm on the inside, but also the skin can slide up and down freely to give you a more realistic experience. The built-in keel can be bent into any shape of environmentally friendly TPE material, with a super adsorption suction cup. The	Flesh	50	\$14.44
