

RC-11

LEVEL GAUGE WITH SIGHT GLASS

GENERAL FEATURES

Ayvaz RC-11 sight glass work on the basis of the fact that water and steam are seen in different brightness in reflex glass as a result of the light breaking in liquid and gas phases.

Fluid is seen as dark colour because of the swallowing of the light, steam is seen as bright because of the reflection of the light. In such level indicators, the separation surface between the fluids can not be observed due to product weld.

Connection

DN20 PN 16 Flanged

Pressure Value

Max. 40 bar

Working Temperature

Max. working temperature 250 °C

Application Areas

- All steam boilers
- Filling unloading containers
- Fuel containers
- Chemical industry
- Tanks for oil and petroleum products
- All containers open or closed

Valve Body

GG-25 Cast Iron

Lower Table

Carbon Steel

Max. L is 2115 mm. Please consult for different connection, length, pressure and applications.
