

AXIS F9114 Main Unit

4-channel main unit with audio and I/O

AXIS F9114 is designed for use with four sensor units in discreet video surveillance applications. It delivers excellent video quality even in challenging and low light conditions. Ideal for emergency vehicles and buses, it features ignition control with controlled shutdown to ensure you don't drain the vehicle's battery. Based on a divided network camera concept, it uses sensor units and cables (up to 30 m/ 98 ft) from Axis with SMA-FAKRA connectors to withstand vibrations and ensure a ruggedized installation. Furthermore, Axis Edge Vault protects your Axis device ID and simplifies authorization of Axis devices on your network.

- > 1080p at 30 fps on all 4-channels
- > Rugged design and connectors
- > Multiple sensor and cable options
- > Support for 2-way audio and I/O
- > Zipstream, Lightfinder, Forensic WDR
