PRODUCT BULLETIN

ARI-400 LO-CAT® STABILIZER SOLUTION

DESCRIPTION

ARI-400 MAKEUP SOLUTION IS A CONCENTRATE FOR TAILORED FOR USE AS AN INDUSTRIAL DESULFURIZATION STABILIZER ADDITIVE IN THE LO-CAT PROCESS.

MATERIAL IDENTIFICATION

Product Name/Synonyms	ARI-400
Chemical Name/Family	Stabilizer Additive
Formula	Proprietary
Effective Date	June 5, 2015
EMERGENCY NUMBER- USA & CANADA	CHEMTREC 1-800-424-9300
EMERGENCY NUMBER - INTERNATIONAL	CHEMTREC 001-703-527-3887

PHYSICAL DATA (TYPICAL)

Appearance: Light brown liquid	Odor: Slight, sweet
pH: 6.5 Approximate	Boiling point/boiling range: 212 °F (100 °C) Approximate
Melting point/melting range: 32 °F (0 °C) Approximate	Flash point: > 200.0 °F (> 93.3 °C)
Flammability: Not applicable	Autoflammability: Not applicable
Explosive properties: Not explosive	Oxidizing properties: Not an oxidizer
Vapor pressure: 38 mmHg Approximate	Relative density (H ₂ O = 1): 0.96, approximately
Bulk density: See Relative density	Other data: Volatiles = 89%, approximately
Solubility: Water - Miscible in all proportions	Partition coefficient:(n-octanol/water): Not determined
Fat (type) - Not miscible	Other solvents - Not determined

COMPONENTS

Water and Proprietary Ingredients
