

ARI-600J

PRODUCT BULLETIN

ARI-600J LO-CAT® STABILIZER SOLUTION

DESCRIPTION

ARI-600J STABILIZER SOLUTION IS A STABILIZER CONCENTRATE TAILORED FOR USE AS A SURFACTANT ADDITIVE IN THE LO-CAT PROCESS.

MATERIAL IDENTIFICATION

Product Name/Synonyms	ARI-600J
Chemical Name/Family	Surfactant
Formula	Proprietary
EMERGENCY NUMBER- USA & CANADA	CHEMTREC 1-800-424-9300
EMERGENCY NUMBER - INTERNATIONAL	CHEMTREC 001-703-527-3887

PHYSICAL DATA (TYPICAL)

Appearance		Flammability (solid, gas)	Not applicable
Physical state	Liquid	Upper/lower flammability or explosive limits	
Form	Liquid	Flammability limit – lower (%)	Not available
Color	Blue	Flammability limit – upper (%)	Not available
Odor:	None	Vapor pressure	20 - 30 torr @ 20°C
Odor threshold:	Not available	Vapor density	Not available
pH:	6	Relative density	1.06
Melting point/freezing point:	33.8 °F (1 °C)	Solubility(ies)	
Initial boiling point and boiling range:		Solubility (water)	Miscible
	Not available	Partition coefficient(n-octanol/water)	Not available
Flash point > 200.0 °F (> 93.3 °C)		Auto-ignition temperature	Not available
Evaporation rate	Not available.	Decomposition temperature	Not available

COMPONENTS

Proprietary Ingredient and Hypodicarbonous Acid
