TC15 Mobile Computer

ZEBRA

The right features, the right price—from a leader you can trust

Introducing the TC15, the 5G rugged mobile computer designed for enterprise in the on-demand world. This right-priced device enables workers at every point in the supply chain to complete tasks faster, with flawless accuracy. It offers a rugged design, the power to seamlessly support many workflow applications, an extra-large 6.5 inch screen, consistently reliable integrated scanning, full shift battery power and unmatched ergonomics.

Front 5 MP camera for video calls

Extra large and bright 6.5 in. display

Integrated scan engine*

High resolution 13 MP camera with flash

NFC for easy pairing, package verification, customer identification and more

5G for super fast and reliable cellular connections

Scan key (dual sided)

Dual Nano SIM

Full-shift battery power: 5000 mAh removable battery

Optimized weight distribution and ergonomics

Specially designed wave texture for a solid grip

Scratch-resistant glass with a beautiful surface

Instant familiarity of Android™, plus full Zebra Mobility DNA™ Professional suite

10:30, Thu, May 12

* Scan engine configuration varies by country.

Built to Last—Yet Less Than the Total Cost of a Cell Phone

The rugged TC15 is IP67 waterproof, dustproof and drop-proof, able to handle rain, snow, heat or cold, with exceptional ergonomics and optimized weight distribution. And the TC15 costs much less to operate and support than a cell phone.

Loaded with the Features Workers Need to Do Business Better—and Faster

Get the fastest wireless connections with 5G. Capture every barcode in practically any condition with the integrated world-class scanner. Maximize your productivity with 6.5 in. display. Power all your applications, simultaneously, with the advanced octa-core 2.2 GHz processor. Get solid connections to wireless headsets and mobile printers with Bluetooth® 5.1 BLE.

Boost Productivity and Device Value with Mobility DNA Professional Tools

Get more out of your TC15 with this complimentary Mobility DNA toolkit. Increase device security, control availability of apps and services. Stage a handful or thousands of devices in seconds.
