

# Product Technical Data Sheet

**Chemical name:** Linear Alkylbenzene Sulfonic Acid 96%  
**CAS number :** 68584-22-5

## Product Applications:

Behdacid can be used in all types of household, industrial and institutional cleaners including laundry, dishwash, carwash, hard surface and general purpose detergents. It can also be utilized as an intermediate in preparation of emulsifiers and wetting and foaming agents.

## Packing:

## Typical Properties

Characteristic	Specification
Appearance	Light brown viscous liquid
Anionic active %, (Mw:322)	Min 96
Free oil, %	Max 2
Free sulphuric acid, %	Max 1.8
Color (30°C) , Klett	Max 40
Acidity , mgKOH/gr	178-190
H2O, %	Max 0.5
