

Storage & Shelf Life of SPC[®] Absorbents

The shelf life of absorbents is influenced by many factors. Proper storage is important and will increase the shelf life. A shelf life of 5 years should be achievable when stored correctly.

Improper storage will shorten the life expectancy drastically.

Some examples of improper storage;

- Longer UV exposure will result in brittle material with low to no absorbency power.
- Exposure to moist will reduce the absorbency.

Absorbents are crucial when it comes to spill readiness. We therefore recommend regular inspection of the absorbents.

Below are some general guidelines about the proper storage of SPC[®] absorbents applicable for pads, rolls, socks and Spill Kits.

If you have specific storage question please don't hesitate to contact us

Storage

- SPC[®] absorbents must be stored flat,
- Do not stack or place other materials on top of the absorbents.
- Keep the absorbents in the original packaging in which it was delivered
- Store out of direct sunlight, even when stored inside a building.
- Stored in dry and low humidity conditions.
- Avoid exposure to or contact with chemical fumes, vapour or mist.

Spill kits

Spill kits are ideal to position close to spill sensitive area's or as a mobile media to react fast to any type of spill. The same storage principles as mentioned above apply for spill kits.

Additionally we recommend a regular inspection.

- Visual check and feel the absorbents. They should be lufty, softfeeling and should not look and feel brittle. Also check on discoloration
- Check if the spill kit is properly closed. For outdoor spill kits, check if the seal of the container still properly seals off.
- Check if the spill kit is complete

Brady SPC products are sold with the understanding that the buyers will test them in actual use and determine for themselves their adaptability to their intended uses.

Brady warrants to the buyers that its products are free from defects in material and workmanship, but limits its obligation under this warranty to replacement of the product shown to Brady's satisfaction to have been defective at the time Brady sold it.

This warranty does not extend to any persons obtaining the product from the buyers. This warranty is in lieu of any other warranty, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose, and of any other obligations or liability on Brady's part.

Under no circumstances will Brady be liable for any loss, damage, expense, or consequential damages of any kind arising in connection with the use, or inability to use, Brady's products, hold accountable for absorbent performance issues due to shelf or storage
