Ergonomics

A long-lasting work in an inconvenient position may lead to occupational diseases (muscle and joint disorders). This is why desks in ALFA system have the possibility of height adjustment, which gives a chance to adjust the workplace to the worker's height and minimize the risk of spinal disorders.

An economical way of dividing workspace

Organizing some space both over and under the table has a lot of advantages. Work becomes more pleasant and more effective. Due to the implementation of proper accessories it is very easy to keep order. Simple and stable holder adjusted to bigger computer set up vertically, directly under the desk top provides easy access to the unit and greater freedom of movements.

M03 top access 320/110/26

Aluminium mediabox provides access to the network vault and power supply. It can be used in desk tops and conference tables.

- BA10 desk 1600/1200/740 + M03 top access
- BA11 desk 1600/1200/740 + M03 top access
- PL20 desk extension 516/1600/28 + NE45 supporting leg Ø40/652-752
- S81 vertical cable duct

- KDT13** pedestal 402/600/586

Implemented height regulation gives a possibility to adjust the desk to the height of the user providing maximum comfort at work and proper bodily posture. Working for a long time at the desk can cause various diseases of the spinal column. Due to proper setting of the height of the desk work becomes more comfortable, healthy and safe. Continuous height adjustability within 68-78 cm (screwable foot)

divide

your
office

Simple, lightweight and modern construction designed according to the world's current trends of industrial design.
28 mm thick desktops available in various shapes.
Desks, extensions, conference tables available in a wide range of colours.
The desktop's geometry allows to place the screen in a safe distance from the eyes (70-80 cm).

120° workstation

ALFA 120° workstation is ideal solution where communication is required.

Partitions cloth panels hanging frames

Partitions and screens divide the space optically and reduce noise. Coated with cloth, partitions (40 mm thick) are connected at the right angle. You can place on them shutter cabinets, shelves, as well as hanging frames. Cable channels have been designed in the base.

EE411 post upholstered partition wall 40/40/1850
A3104 storage 801/432/1129

division of labor

Tidiness and comfort

To set optimum work conditions arrange supplementary furniture, panels and partitions. Noise in workplace is both tiring and lowers effectiveness. This is why we recommend the use of partition walls, panels and cloth-covered screens that reduce the sound level by approximately 30%.
