Approvals

- This composition meets the criteria for not being harmful to the marine environment according to MARPOL Annex V and may be discharged into the sea when used to clean cargo holds and external surfaces on ships.
-

Directions for use

Dosing method

Depending on the degree of contamination Uni-Wash shall be mixed with warm water at a dose rate of 50 to 200 ml per 10 litres, i.e. 1 cup to a bucket of water.

Uni-Wash solution can be applied simply by mops, brushes or rags, or dip the soiled articles into the Uni-Wash solution. After cleaning, rinse off with cold or warm water.

Due to high foaming properties, Uni-Wash is not recommended for laundry washing machines.

Sampling and testing

Uni-Wash is an accommodation cleaner.
