# RE88857701

universal plug-in timing relay - 24..240 V AC - 1 C/O

# Main

| Range of product              | Zelio Time  |
|-------------------------------|---|
| Product or component type     | Universal timing relay  |
| Electrical connection         | Plug-in sub-base with 11 pin(s)   |
| Discrete output type          | Relay   |
| Contacts type and composition | 1 C/O (timed contacts)  |
| Component name                | RE88857   |
| Time delay type               | A<br>B<br>C<br>D<br>Di<br>H   |
| Time delay range              | 3599640 s<br>35996400 s<br>359940 s<br>359964 s<br>5999 s<br>5999.4 s<br>59994 s<br>599940 s<br>9999 s<br>99.99 s |
| [In] rated current            | 8 A   |
| Display type                  | LED   |
|                               |   |

# Complementary

| Product front plate size       | 48 x 48 mm   |
|--------------------------------|--|
| [Us] rated supply voltage      | 24240 V AC at 50/60 Hz<br>24 V AC/DC at 50/60 Hz   |
| Voltage range                  | 0.851.1 Us   |
| Display digits                 | 4 digit(s) of 7 mm height  |
| Housing material               | Self-extinguishing   |
| Repeat accuracy                | +/- 0.03 % +/- 20 ms   |
| Setting accuracy of time delay | +/- 0.03 % +/- 20 ms of full scale   |
| Minimum pulse duration         | 50 ms  |
| Reset time                     | <= 0.05 ms during time delay, on de-energisation <= 0.05 ms after time delay, on de-energisation |
| Power consumption in VA        | 1.5 VA at 48 V<br>4 VA at 110 V<br>12 VA at 230 V<br>1 VA at 24 V                                |
| Power consumption in W         | 0.5 W at 24 V  |
| Breaking capacity              | <= 2000 VA for resistive load  |
| Breaking capacity              | <= 190 W for resistive load  |
| Maximum switching voltage      | 30 V DC<br>250 V AC  |
| Temporary permissible current  | 15 A for < 10 s  |
| Minimum output current         | 100 mA   |
| Electrical durability          | 100000 cycles at 250 V AC for resistive load   |
| Mechanical durability          | 5000000 cycles   |

| Mounting support | Base mounted: socket                            |  |
|------------------|---|--|
|                  | Panel mounted: system supplied with the product |  |
| Local signalling | None  |  |
| Product weight   | 0.1 kg  |  |

# Environment

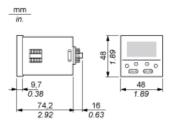

| Immunity to microbreaks               | < 30 ms                           |
|---------------------------------------|-----------------------------------|
| Standards                             | IEC 60255<br>VDE 0435<br>VDE 2021 |
| Product certifications                | CSA<br>CURus                      |
| Ambient air temperature for storage   | -3070 °C                          |
| Ambient air temperature for operation | -1060 °C                          |
| IP degree of protection               | IP65 (front panel)                |

## Function A: Power on Delay Relay

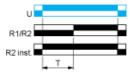

## Description

The timing period T begins on energisation. After timing, the output(s) R close(s). The second output can be either timed or instantaneous.

#### Function: 1 Output

#### Function: 2 Outputs

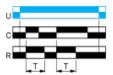

2 timed outputs (R1/R2) or 1 timed output (R1) and 1 instantaneous output (R2 inst.)

# Function B: Interval Relay with Control Signal

#### Description

After power-up, pulsing or maintaining control contact C starts the timing T. The output R closes for the duration of the timing period T then reverts to its initial state.

### Function: 1 Output

## Function C: Off-Delay Relay with Control Signal

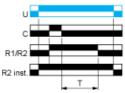

## Description

After power-up and closing of the control contact C, the output R closes. When control contact C re-opens, timing T starts. At the end of the timing period, the output(s) R revert(s) to its/their initial state. The second output can be either timed or instantaneous.

# Function: 1 Output

## Function: 2 Outputs

2 timed outputs (R1/R2) or 1 timed output (R1) and 1 instantaneous output (R2 inst.)

### Description

 $Repetitive \ cycle \ with \ two \ timing \ periods \ T \ of \ equal \ duration, \ with \ output(s) \ R \ changing \ state \ at \ the \ end \ of \ each \ timing \ period \ T.$ 

The second output can be either timed or instantaneous.

Function: 1 Output

## Function: 2 Outputs

2 timed outputs (R1/R2) or 1 timed output (R1) and 1 instantaneous output (R2 inst.)

## Function Di: Symmetrical Flasher Relay (Starting Pulse On)

## Description

Repetitive cycle with two timing periods T of equal duration, with output(s) R changing state at the end of each timing period T.

The second output can be either timed or instantaneous.

#### Function: 1 Output

### Function: 2 Outputs

2 timed outputs (R1/R2) or 1 timed output (R1) and 1 instantaneous output (R2 inst.)

#### Function H: Interval Relay

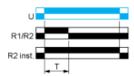

#### Description

On energisation of the relay, timing period T starts and the output(s) R close(s). At the end of the timing period T, the output(s) R revert(s) to its/their initial state. The second output can be either timed or instantaneous.

### Function: 1 Output

#### Function: 2 Outputs

2 timed outputs (R1/R2) or 1 timed output (R1) and 1 instantaneous output (R2 inst.)

#### Legend
